Special Thanks:

To Dr. Floyd Domer, our Faculty Advisor.

To the Tulane Medical School Department of Anatomy, the Tulane Medical Archives, and Tulane Medical Center Relations for providing the rare old prints and sketches depicted in this book.

To Alan Dufour and Ruth Bunch for all those week-ends spent developing and printing our photos.

To Dave Kline and Ellen Waldman for their literary contributions.

To Bill Hopkins of Josten's Publishing Co. for his expertise and patient counsel.

To our generous sponsors and to the companies and organizations who advertised in this publication.

And finally to Harley Ginsberg, who conceived the T-Wave, for setting us on our way.

Dear M_____

I take great pleasure in informing you of your appointment to the first-year medical class at the Tulane University School of Medicine, to enter in August of 1979. I sincerely hope that you will accept our invitation to take your medical training at Tulane, and look forward to having you join us.

In order to reserve your place in the class, we must receive, within the next two weeks, written notification of your intent to accept our invitation, along with a check for $100 payable to the Tulane Educational Fund. This deposit will be credited to your tuition account for the first semester of academic year 1979-80.

I am sure you will understand that your appointment is contingent upon successful completion of all required premedical courses, completion of the academic program in which you are currently enrolled and maintenance of the level of academic performance that was part of the basis for your acceptance. A final transcript of your grades must be forwarded to this office as soon as your school closes in June.

If you anticipate need for financial assistance during your first year in medical school, please correspond directly, and as soon as possible, with:

Financial Aid Coordinator
Office of the Dean
Tulane University School of Medicine
1430 Tulane Avenue
New Orleans, LA 70112

On behalf of the students, faculty, and administration, I bid you a most enthusiastic welcome to Tulane. If I can be of service to you in any way, please feel free to call upon me.

Sincerely,

W. Clifford Newman, Ph.D.

First Year

WE ARE HERE!

We came with dreams, our knowledge too limited to prepare us for the onslaught, but our eagerness too vivid to be tempered with self-doubt. Medical School was finally a reality, the end of the road, the other side of the rainbow. We are here!

But wait ... where are the brass bands, the red carpet, the adoring crowds, the cheering throngs? Have we not conquered?!

Lab A

Lab B (above) and Lab C (below)

What awaited us was, in essence, a year of coming back to earth. We would soon learn that this was but the beginning. Doctorhood reverted to the ethereal goal it had been in college, no nearer now that it had seemed then. Putting our visions of medicine aside for the moment, we struggled with the more mundane tasks of learning to recognize "health."

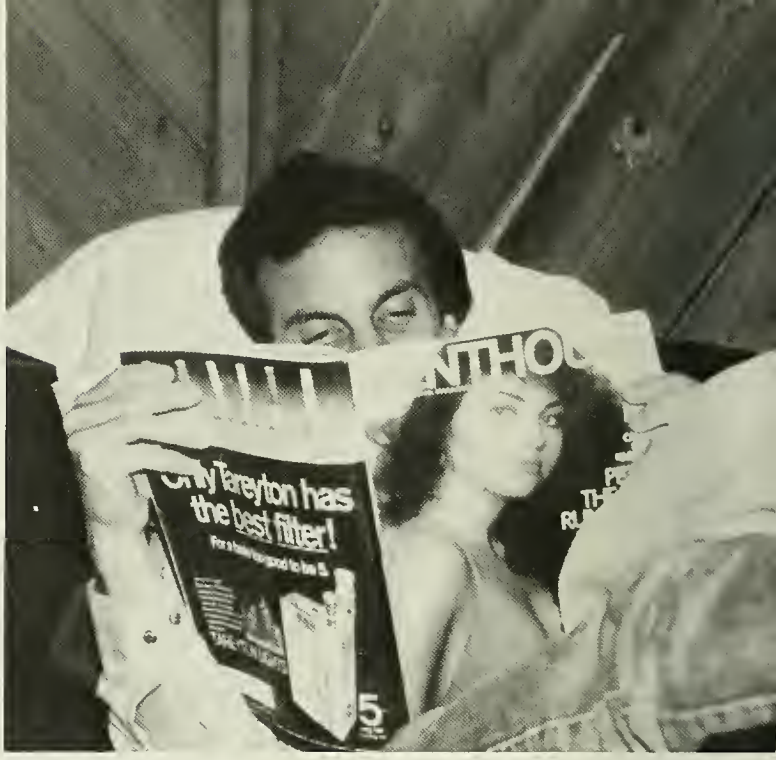
Third Year

OB-GYN

It started just last August
when our coats were pressed and white
each pocket filled beyond its peak
with scopes and pens and lights.
Our instruments still virginal,
just peer exams they'd seen.
What would this new adventure hold?
What would the next year bring?

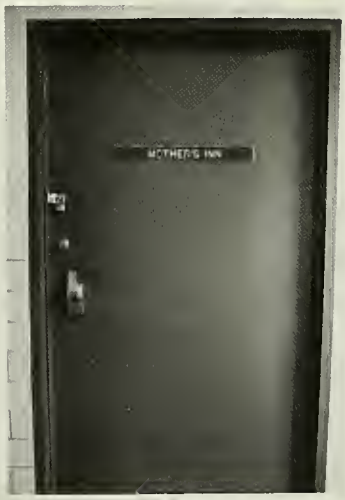
It seems appropriate to begin
as some of us did that Fall
with the department of OB-GYN
chaired by M.L. "Bud" Pernoll.
To Pineville, Houma, Lallie Kemp and
Charity we went
to learn when they yelled "Delivery!"
it wasn't Pizza that they meant.

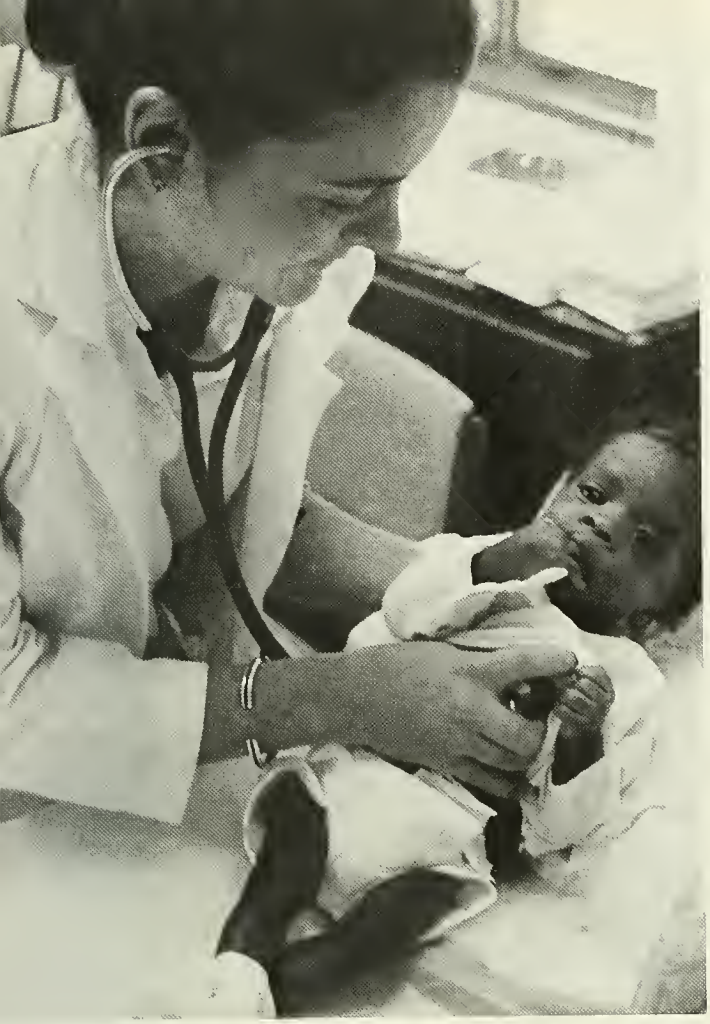


Reviewing Anatomy for OB

Abruptio Placentae

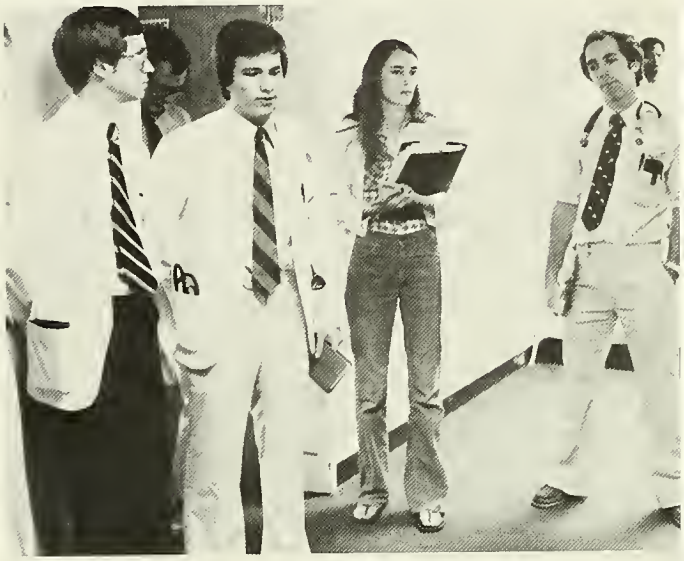
Pineville Delivery Team

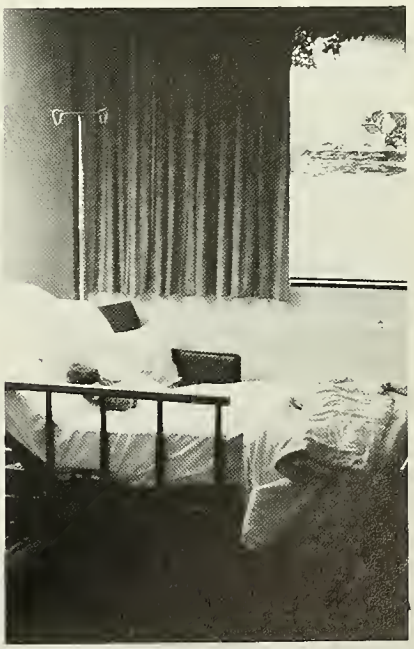




PEDIATRICS

Next comes Pediatrics where they kept
us rather busy.
We rounded so many times a day
it almost made us dizzy.
But even so, despite all that,
as teachers none surpass
Dr. Lewy's sterling faculty
and the Charity housestaff.

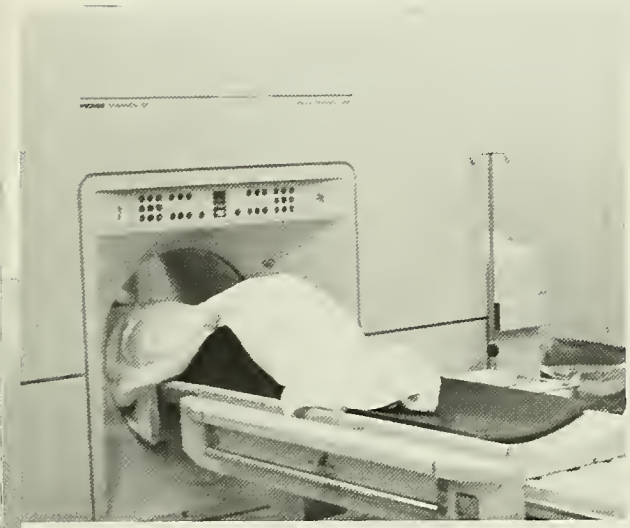




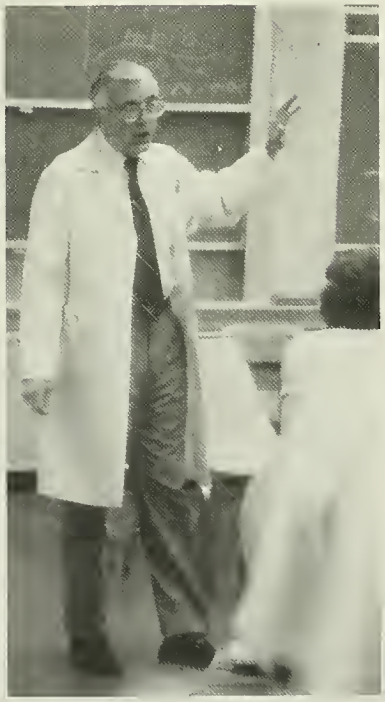
The number one peds rotation was the
time spent in closed care
where we learned the Microbiology
we should have learned last year.
Charity wards and TMC,
they too received good ratings.
This department's goal is teaching us,
of that there's no debating.

NEUROPSYCH

The time has come to talk about
the course they call Neurology
where Dr. Weisberg teaches of
the brain and its biology.
We learned the finer points
of neurological exam
and became proficient escorting
patients to and from CAT scan.



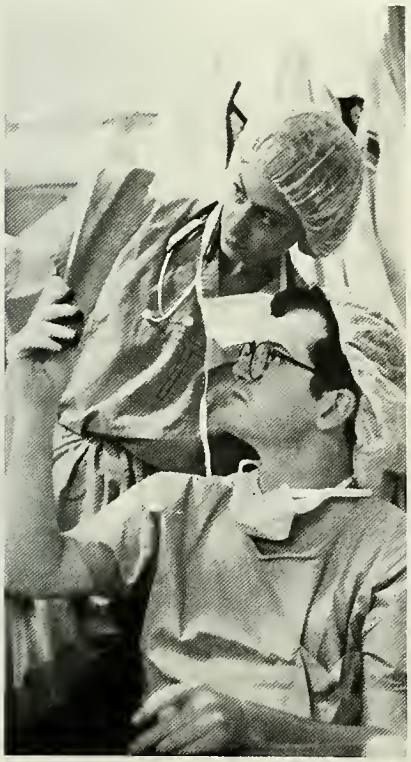
And Dr. Gallant, at that point,
Professor of Psychiatry,
taught us, oh yes, one more time
the benefits of sobriety.
He took us all to Mandeville
through wind and sleet and rain;
now there's hardly a student left here
who will touch the stuff again.



SURGERY

I'll be out in 10 minutes.

But I am standing!



Alarm clocks set for 5am
to make rounds by 5:30.
We learned the art of dressing change;
don't let those wounds get dirty.
Professor's rounds each Thursday
got a great evaluation;
Drs. Kerstein and Bill Browder
deserve a big ovation.
And as each Saturday grew near
and Bullpen time came closer,
the chosen students wondered then
would Dr. Peacock be their roaster!

MEDICINE

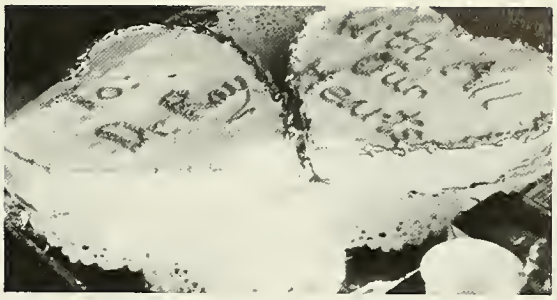
We truly were quite lucky
being taught by Dr. Ray.
This year he leaves the chairmanship;
we really wish he'd stay.
On the wards at Charity
Each Saturday he showed us
both the scientific basis and the art
of diagnosis.
E.B.W.

Really, Sir, You'll like our nurses.
You are now entering the twilight zone.

I can feel murmurs you can't even hear.

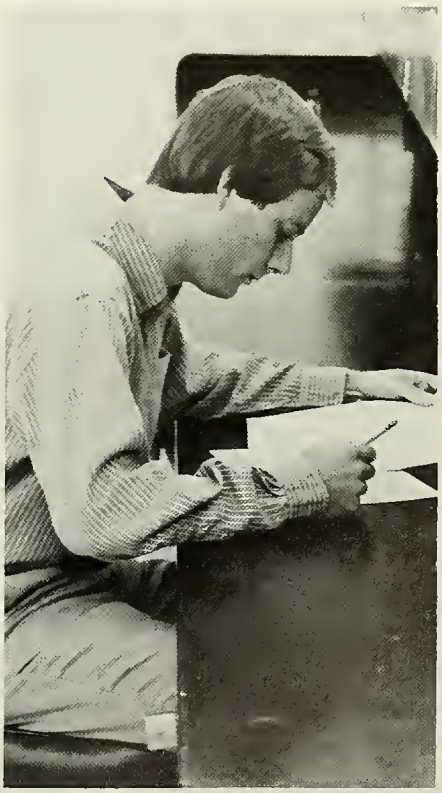
View from the Presidential Suite, Hotel Charity.

The calm before the storm



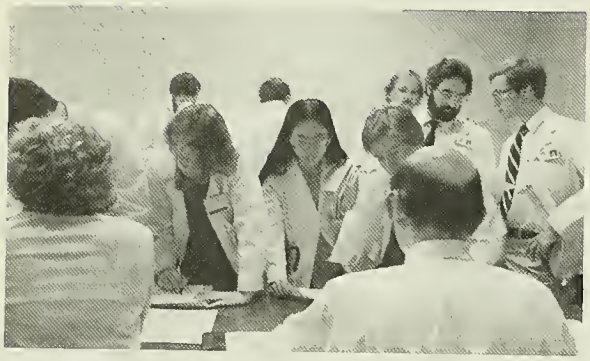
LuVENya!

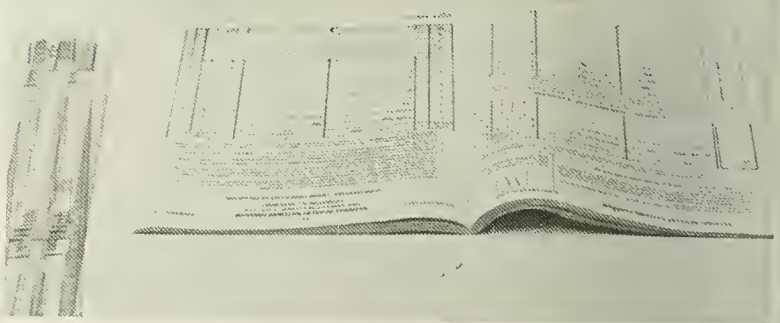
Dear Dad . . .



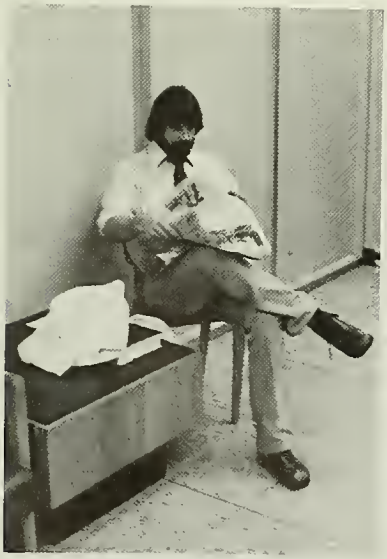
Etcetera, Etcetera.

Mr. Meksin is quite undecided as to whether he wants to be a surgeon, internist, radiologist, pediatrician, anesthesiologist, or the head of the Microbiology department. He does know that he definitely wants to live in Des Moines. So he chooses the C-16 program with an option for a flexible-transitional. If his categorical/preliminary doesn't come through on the I-10 or I-12 in Phase II, then he reverts back to two "S" programs in order to phase-out completely and go for an M.B.A.





What are you doing in the closet, Bill?



Reviewing his options.

Come on, guys! They put their pants on the same way you do!

It's a nice gesture but they're still getting a quiz tomorrow.

And they said you'd never see the sun as a med student.

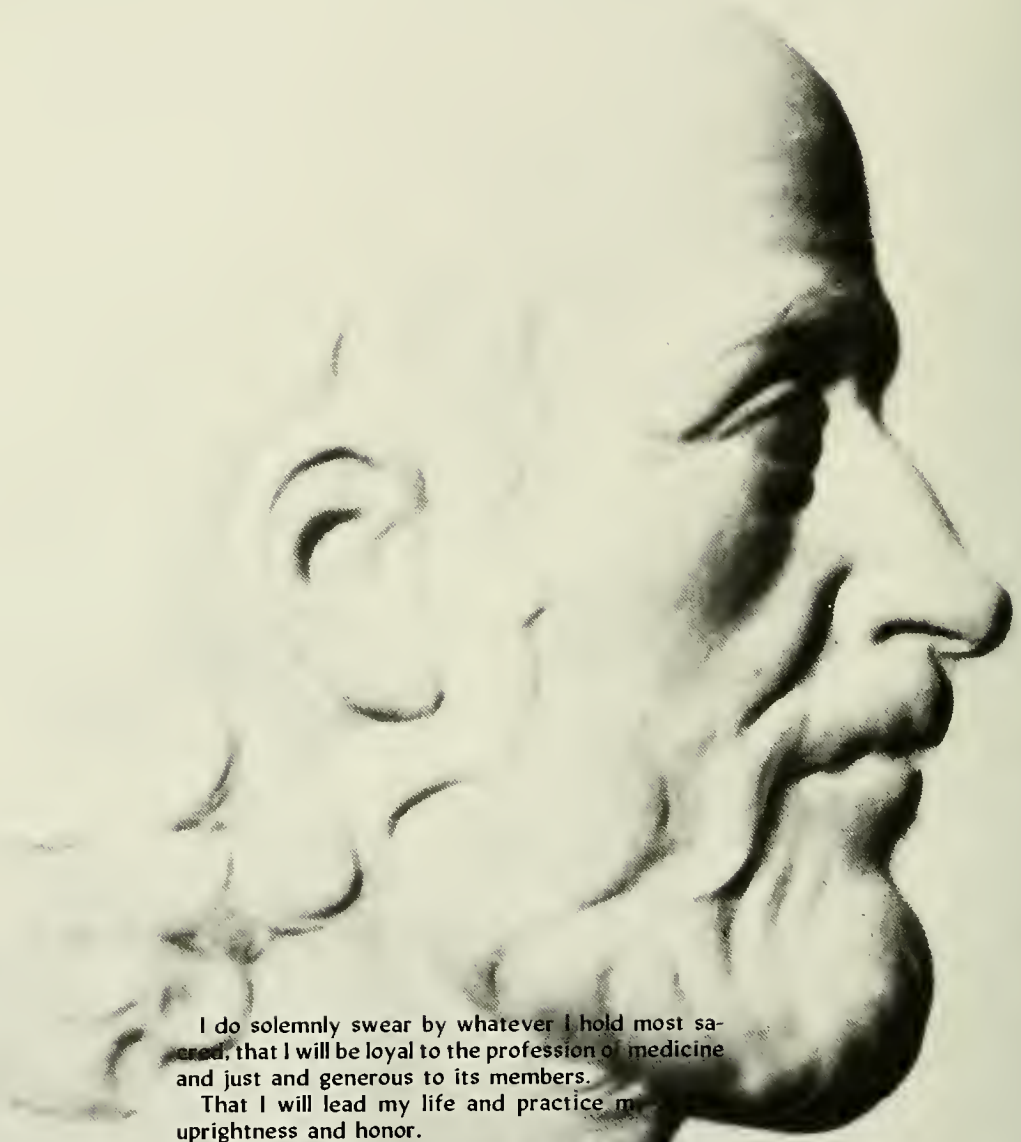
HIPPOCRATES



I do solemnly swear by whatever I hold most sacred, that I will be loyal to the profession of medicine and just and generous to its members.

That I will lead my life and practice my uprightness and honor.

That into whatsoever home I shall enter it shall be for the good of the sick and the well to the utmost of my power, and that I will hold myself aloof from wrong and from corruption and from the tempting of others to vice.

That I will exercise my Art, solely for the cure of my patients and the prevention of disease and will give no drugs and perform no operation for a criminal purpose and far less suggest such thing.

That whatsoever I shall see or hear of the lives of men which is not fitting to be spoken, I will keep inviolably secret.

These things I do promise and in proportion as I am faithful to this oath, may happiness and good repute be ever mine, the opposite if I shall be forsworn.
